

SAHARAN ARTS

What ring size am I?

Use a ring that currently fits your finger, preferably one with a similar size band width to the one you want to buy.

(If the ring to be purchased has a wide band width, a slightly larger ring size may be needed.)

Print out this document at 100%, making sure that you do not select the 'shrink to fit' or 'scale to fit page' options.

Measure the line below, it should measure 7cm if printed out at 100%.

Place your ring over the circles opposite to find your correct ring size.

Your ring should fill the circle completely, with no colour showing outside the ring, and no white showing inside the ring.

Your ring size will be indicated by the A-Z letters printed within the circle.
